LIBRARIAN'S REPORT

Chesterfield Library
January 1946

To the Trustees of the Chesterfield Library:

Herewith is presented the annual library report:

About 100 books have been purchased for the library during 1945. Of these some 35 were marked gift of Etta Hubbard Fund as they were purchased with the interest from that fund.

For the year 1945 the total circulation for the central library was 3,337 volumes.

Adult fiction,	1,348	Non-fiction,	366
Juvenile fiction,	1,403	Non-fiction,	220

West Chesterfield reports 806 books loaned during the year.

Spofford reports 643.

There have been seven book exchanges with Spofford in 1945. There have been no book exchanges with West Chesterfield as some 206 volumes were sent there in 1944 and we felt that some should be returned before we sent any more.

The following persons donated books to the library:

Mrs. Honora Savaria

Mrs. Albert Berry

Dr. Charles Douglas

Dr. Charles Douglas' donation consisted of about 60 books, some fiction, historical novels, reference books and literature. A splendid addition to our library.

Several sets of magazines were brought to the library and have been well read. The patrons register shows 14 new names.

Mrs. Friedsam presented the library with a book for the purpose of printing the names of all who donate gifts other than money to the library.

It is very much appreciated and I am sure will be of interest to everyone.

Respectfully submitted,
ARDELLE HASKELL,
Librarian.

REPORT OF THE BOARD OF HEALTH

In the past year the Town had several cases of Scarlet Fever which were mostly mild cases.

We were able in all cases to isolate the patient and quarantine the houses and let the head of the family keep on with his work and in only one case was the disease spread. This was a boy going to school and did not know that he had the scarlet fever. When children are not well their parents should keep them from school until their sickness is diagnosed by a doctor. Report all suspicious cases to your health officer and he will assist you in any way possible. Call Brattleboro 255-W-2 and reverse the charges.

We had some complaints about odors caused by dead animals being dragged into the woods and not buried.

The Town Beach so-called was in charge of the late Nelson H. Ball and was kept in a satisfactory condition. The other parts of the Lake Shore were supervised by Frank Whorfe who also attends to the garbage and the public dump.

Seventeen milk licenses were issued for the sale of milk and cream, eight of which were issued to buy and sell milk and cream at two dollars each as follows: Paul Penning, Henry Chickering, William Manch, Harry Nosek, Clifford Tuttle, John Redding, Woodrow F. Shaw and Brattleboro Milk plant.

Several samples of water were sent to Concord for analysis, none proved dangerous enough to condemn.

Respectfully submitted,
HAROLD E. RANDALL,
Health Officer.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Chesterfield:

I herein submit my third annual report as superintendent of schools.

The fundamental purpose of the American Constitution, as defined in the preamble, "to promote the general welfare", places heavy responsibilities on all institutions for public education. Now that we have plunged into the Atomic Era a higher level of universal education is imperative.

"The men and women in uniform are coming home having finished the gigantic job of making human freedom possible. Victory in the war against ignorance necessitates another great invasion in which the penalties of failure are as grave as that of a military disaster. The knowledge, the skills and the understandings gained by our young people in the next few years will determine whether this country can of will solve the difficult social, economic, and political problems that make peace possible. The implications of all of this are very clear. The teachers have a key position in the most essential business of all. These commandoes of the peace must be well trained and equipped if their mission of 'the general welfare' is to be accomplished."

At the White House Conference on Rural Education in 1944 some interesting facts were revealed. Although the rural children of school age constitute more than half of such children in the nation they have only 38 percent of the available funds for the support of schools. The number of high school graduates is about fifty percent higher in urban schools. The per pupil investment in equipment and property is lower in rural areas but the per pupil daily cost is greater than in urban areas. This idea of contributing more and receiving less indicates the need for re-

organization based on a careful consideration of educational trends. The boys and girls living in rural areas must be prepared to compete with their city neighbors.

The teacher shortage is at present our most serious problem. The small community without an experienced resident teacher faces a critical situation. Something more must be done to make well qualified teachers available in rural areas. This implies many factors. The support of the taxpayer is not the only essential for good schools.
